

SCT is pleased to announce a new Student Award Opportunity

Submit your Nominations by April 23, 2021

SCT Members,

We are pleased to announce a new award opportunity that will be managed by the newly formed SCT Equity, Diversity and Inclusion Committee in an effort to extend invitations to students from underrepresented groups in the fields of biostatistics, statistics, epidemiology, nursing, data sciences and computer science to promote a racially and ethnically diverse SCT membership.

This new Award category will be guided by the definitions of race and ethnicity used by the National Institutes of Health and will serve as a pipeline for students from underrepresented groups to have a one year membership of SCT and registration for the Annual Meeting sponsored by SCT.

In addition, all awardees will be invited to attend a welcome reception with the SCT President, Chair and Members of the ED&I committee and will have an opportunity to network with SCT Leadership.

Awardees will be notified by May 7, 2021.

We welcome interested students to submit their nomination by **filling the online form:**

<https://www.sctweb.org/studentAward.cfm> and emailing the following information to info@sctweb.org:

- A copy of your current Student ID
- A letter from your advisor certifying that you are a student

Please note that nominees may not be current or previous members of SCT, and each institution may nominate up to two students.

The deadline for submitting your nomination is April 23, 2021.
